PROFILE

Senior iOS developer with more than 15 years of experience building high-quality apps with Swift, SwiftUI and Combine. Key strengths include Swift Concurrency, Foundation, iOS platform APIs, and automated testing with Swift Testing and XCTest. Experienced in complex product environments, e-commerce and marketplaces, and reliable GitLab CI/CD delivery.

PROFESSIONAL EXPERIENCE

Senior iOS Developer03/2025 - present

EnBW - Karlsruhe

At EnBW, I support the development of a new app platform. I use AI-assisted workflows for planning, technical verification, implementation, automated testing, and code reviews while retaining engineering ownership.

Swift · SwiftUI · Combine · TCA · MVVM · Swift Concurrency · SwiftData · Foundation

Senior iOS Developer11/2024 - 02/2025

Chrono24 - Karlsruhe

Chrono24 App

At Chrono24, I supported the redevelopment of the catalog in an international e-commerce and marketplace environment.

Swift · SwiftUI · Combine · TCA · CleanSwift · Swift Concurrency · SwiftData · Foundation

Senior iOS Developer03/2024 - 10/2024

1und1 - Munich

1&1 Mail Apps (e.g. GMX)

At 1&1, I worked on cloud interactions in the mail apps. During that time, we completed a larger migration from UIKit to SwiftUI. I also completed attachment support in the mail list.

Swift · UIKit · SwiftUI · Combine · REST (JSON) · Viper · CI/CD · Jenkins

Senior iOS Developer02/2022 - 09/2023

RTL - Cologne

RTL+ App

At RTL, I first worked on the magazine team and accompanied that area from the beginning through to public release. During development, we built several UIKit components that were also used by other teams across the RTL+ app. Later, we connected live events to the existing streaming area, implemented completely in SwiftUI and embedded into the existing UIKit application.

Swift · UIKit · SwiftUI · Combine · REST (JSON) · GraphQL · CleanSwift · CI/CD

Senior iOS Developer06/2021 - 01/2022

Nexenio (Luca App) - Berlin

Luca App

During the Covid period, I worked on the Luca App. The project had a strong focus on app security and data encryption. We built a complex system for storing and transporting encrypted data so it was possible to match who had been at a specific place at a specific time without knowing exactly who was there.

Swift · UIKit · RxSwift · REST (JSON) · GraphQL · MVVM+C · CI/CD · Jenkins

EARLIER EXPERIENCE

Senior iOS Developer01/2021 - 05/2021

Comdirect - Rostock

Comdirect PhotoTAN App

At Comdirect, I worked on the PhotoTAN app. The main topic was migrating many areas from UIKit to SwiftUI. We also had to ensure smooth collaboration with the Comdirect banking app.

Senior iOS Developer04/2020 - 12/2020

Buhl - Mannheim

Steuer:Phone App

At Buhl, I joined ongoing development of the Steuer:Phone app. The first major task was migrating the existing architecture from MVC to MVVM+C. A special aspect of the app is that the dialogs are generated on the server side and sent to the client as JSON. The client transforms this complex JSON into UIKit dialogs.

Senior iOS Developer06/2019 - 03/2020

Porsche - Ludwigsburg

My Porsche iOS App

Development and continued improvement of the My Porsche iOS app for Porsche drivers.

Additional Experience		
04/2017 - 05/2019	iWelt	Senior iOS Developer
11/2016 - 03/2017	Tallence	Senior iOS Developer
03/2015 - 10/2016	DRF	Senior iOS Developer
01/2015 - 02/2015	Vodafone	Senior iOS Developer
01/2014 - 08/2014	Bosch	Senior iOS Developer
2004 - 2013	Various	PHP/Frontend Developer

SELECTED PROJECTS

Devil - Apple Developer Toolkit2026 - present

Native macOS 26 menu-bar app for cleaning Xcode and SPM caches, controlling simulators, and running Git workflows with local Apple Intelligence. A custom MCP server for Devil is currently in development. Developed end to end using AI-supported, agentic workflows under my technical direction.

Swift · SwiftUI · Swift Concurrency · Foundation · AppKit · Apple Intelligence

Fast.io - Fasting Timer2025 - present

Intermittent fasting timer for iPhone and Apple Watch with Live Activities, widgets, Apple Health, and hydration tracking. Developed end to end using AI-supported, agentic workflows under my technical direction.

Swift · SwiftUI · Swift Concurrency · Foundation · Swift Testing · XCTest

OverlayLab - Weather Camera & Text Overlays2025 - present

Camera app for weather, location, and text overlays on photos and videos.

Swift · SwiftUI · CoreLocation · WeatherKit · Photos · AVFoundation

S3XY Watch for Tesla12/2022 - present

iPhone and Apple Watch app for controlling and monitoring a Tesla with a Swift/Vapor backend.

Swift · SwiftUI · Vapor · REST (JSON) · MVVM · Xcode Cloud

AI-SUPPORTED DEVELOPMENT

Agentic Coding with the Codex, Grok, and Claude Code harnesses: planning and business logic with Codex and Grok, UI and creative implementation with Claude Code; a workflow spanning planning, verification, implementation, and code review; specialized Skills and XcodeBuildMCP; phase- and risk-aware reasoning selection across planning, implementation, bug fixing, and review. A custom Devil MCP Server is in development.

TECHNICAL SKILLS

iOS Development

Swift, SwiftUI, UIKit, Combine, Swift Concurrency, async/await, Actors, Foundation, iOS platform APIs, Widgets / Siri, Apple Watch, iPhone / iPad

Backend & APIs

REST/JSON, GraphQL, Vapor

Testing

Swift Testing, XCTest, UI Tests, Snapshot Tests

AI & Agentic Development

Agentic Coding, Prompt & Context Engineering, Planning & Execution Skills, AI-assisted Testing, AI Code Review, Model & Reasoning Selection, MCP Integration

Architecture

MVVM, MVVM+C, CleanSwift, Viper, MVC, TCA

Tools & CI/CD

Xcode, Git, Jenkins, Jira / Confluence, Shell, GitLab CI/CD, Azure DevOps, Xcode Cloud, SPM, CocoaPods, RocketSim, App Store Connect CLI

Security & Crypto

CryptoKit, CryptoSwift, Bluetooth, Encryption

AI Harnesses & Tools

Codex, Grok, Claude Code, XcodeBuildMCP

EDUCATION

Information Technology	University of Applied Sciences, 4 semesters electrical engineering 1993 - 1995	University of Applied Sciences entrance qualification	Fachoberschule, Kempen 1991 - 1993
Software Development	Dekra, Duesseldorf 1995 - 1996	Communication Electronics Technician	Deutsche Bahn, Krefeld/Wuppertal 1987 - 1991
Electrical Engineering	Vocational school, Kempen 1986 - 1987	Secondary school certificate	Hauptschule, Willich 1980 - 1986
