PROFILE

Senior iOS developer with more than 15 years of experience building high-quality apps with Swift, SwiftUI and Combine. Key strengths include Swift Concurrency, Foundation, iOS platform APIs, and automated testing with Swift Testing and XCTest. Experienced in complex product environments, e-commerce and marketplaces, and reliable GitLab CI/CD delivery.

CORE SKILLS

Swift	10 years	**SwiftUI**	5 years
UIKit	15 years	**Combine**	5 years
Swift Concurrency	3 years	**Foundation**	15 years
XCTest	10 years	**GitLab CI/CD**	

PROFESSIONAL EXPERIENCE

Senior iOS Developer
EnBW - Karlsruhe — 03/2025 - present

At EnBW, I support the development of a new app platform. I use AI-assisted workflows for planning, technical verification, implementation, automated testing, and code reviews while retaining engineering ownership.

Swift · SwiftUI · KMP (Kotlin Multiplatform) · Combine · TCA · MVVM · Swift Concurrency · SwiftData

Senior iOS Developer
Chrono24 - Karlsruhe — 11/2024 - 02/2025

Chrono24 App

At Chrono24, I supported the redevelopment of the catalog in an international e-commerce and marketplace environment.

Swift · SwiftUI · KMP (Kotlin Multiplatform) · Combine · TCA · CleanSwift · Swift Concurrency · SwiftData

Senior iOS Developer
1und1 - Munich — 03/2024 - 10/2024

1&1 Mail Apps (e.g. GMX)

At 1&1, I worked on cloud interactions in the mail apps. During that time, we completed a larger migration from UIKit to SwiftUI. I also completed attachment support in the mail list.

Swift · UIKit · SwiftUI · KMP (Kotlin Multiplatform) · Combine · REST (JSON) · Viper · CI/CD

Senior iOS Developer
RTL - Cologne — 02/2022 - 09/2023

RTL+ App

At RTL, I first worked on the magazine team and accompanied that area from the beginning through to public release. During development, we built several UIKit components that were also used by other teams across the RTL+ app. Later, we connected live events to the existing streaming area, implemented completely in SwiftUI and embedded into the existing UIKit application.

Swift · UIKit · SwiftUI · KMP (Kotlin Multiplatform) · Combine · REST (JSON) · GraphQL · CleanSwift

Senior iOS Developer
Nexenio (Luca App) - Berlin — 06/2021 - 01/2022

Luca App

During the Covid period, I worked on the Luca App. The project had a strong focus on app security and data encryption. We built a complex system for storing and transporting encrypted data so it was possible to match who had been at a specific place at a specific time without knowing exactly who was there.

Swift · UIKit · RxSwift · REST (JSON) · GraphQL · MVVM+C · CI/CD · Jenkins

EARLIER EXPERIENCE

Senior iOS Developer
Comdirect - Rostock — 01/2021 - 05/2021

Comdirect PhotoTAN App

At Comdirect, I worked on the PhotoTAN app. The main topic was migrating many areas from UIKit to SwiftUI. We also had to ensure smooth collaboration with the Comdirect banking app.

Senior iOS Developer
Buhl - Mannheim — 04/2020 - 12/2020

Steuer:Phone App

At Buhl, I joined ongoing development of the Steuer:Phone app. The first major task was migrating the existing architecture from MVC to MVVM+C. A special aspect of the app is that the dialogs are generated on the server side and sent to the client as JSON. The client transforms this complex JSON into UIKit dialogs.

Senior iOS Developer
Porsche - Ludwigsburg — 06/2019 - 03/2020

My Porsche iOS App

Development and continued improvement of the My Porsche iOS app for Porsche drivers.

SELECTED PROJECTS

Devil - Apple Developer Toolkit — 2026 - present

Native macOS 26 menu-bar app for cleaning Xcode and SPM caches, controlling simulators, and running Git workflows with local Apple Intelligence. A custom MCP server for Devil is currently in development. Developed end to end using AI-supported, agentic workflows under my technical direction.

Swift · SwiftUI · Swift Concurrency · Foundation · AppKit · Apple Intelligence

Vector Racer — 2026 - present

Vector-only arcade racer with five cars, six circuits, deterministic 60 Hz driving, local best laps, and Game Center leaderboards.

Swift · SwiftUI · Swift Concurrency · GameKit · AVFoundation · MVVM

Ripple - Water Tracker — 2026 - present

Open-source water tracker for iPhone, iPad, and Apple Watch, with widgets, Siri, SwiftData, CloudKit, and optional HealthKit integration. A standalone native Android app built with Kotlin and Jetpack Compose is now available on Google Play.

Swift · SwiftUI · Swift Concurrency · SwiftData · CloudKit · HealthKit

Fast.io - Fasting Timer — 2025 - present

Intermittent fasting timer for iPhone and Apple Watch with Live Activities, widgets, Apple Health, and hydration tracking. Developed end to end using AI-supported, agentic workflows under my technical direction.

Swift · SwiftUI · Swift Concurrency · Foundation · Swift Testing · XCTest

AI-SUPPORTED DEVELOPMENT

Agentic Coding with the Codex, Grok, and Claude Code harnesses: planning and business logic with Codex and Grok, UI and creative implementation with Claude Code; a workflow spanning planning, verification, implementation, and code review; specialized Skills and XcodeBuildMCP; phase- and risk-aware reasoning selection across planning, implementation, bug fixing, and review. A custom Devil MCP Server is in development.
